## PRMITR Engineering College

Bachelor of Engineering in Information Technology(aggregate percentage 82.04)

January 2021 - Present

Maharashtra, India

## RIJR Higher School

State Board of Higher Secondary Certificate Examination

March 2018 - January 2020

Maharashtra, India

## Technical Skills

**Languages:** C++, JavaScript,MySQL

**Technologies/Frameworks:**HTML/CSS,React.js,Redux/Node.js,Express.js,MongoDB,Next.js,TypeScript,Git,Vercel,Netlify,Reactnative,Bootstrap,TailwindCss,Postman,Xano,RestfulAPI's,Visual Code,Npm/Yarn/Vite

## Experience

### React.js Development Intern

OCT 2021 – DEC 2021

*Fitness Fuel 360*

*Navi Mumbai, India*

- Developed interactive and responsive web pages using React.js to enhance user engagement and improve 30% page load.
- Intrigate RESTful APIs to facilitate seamless communication between frontend and backend, enabling efficient user data management accelerated data processing by 50%, enhancing user experience and boosting customer satisfaction.
- Implemented Redux state management to optimize data flow, resulting in a 40% reduction in application load time and increased user satisfaction by streamlining UI responsiveness.

### Web Development Intern

JAN 2022 – MAR 2022

*Edsquare Ventures Private Limited*

*Mumbai, India*

- Create dynamic and responsive web applications, catering to a diverse range of devices and ensuring consistent performance across various browsers and screen sizes.This focuses on optimal user experiences.
- Maintained close coordination with the back-end development team, bridging the gap between front-end and back-end functionalities.

## Projects

**MadeByMe** | *React.js,Express.js,Node.js,MongoDB,Redux,HTML,CSS,RestfulAPI's,Vercel* | **2022**

4

- Created backend using Node.js & Express.js, building RESTful APIs to handle user authentication,course management.
- Implemented user authentication using JWT (JSON Web Tokens) for secure access to user-specific features.
- Optimized the application performance and responsiveness, to reduced load times by 20% and enhanced user satisfaction
- Established interactive course listing pages with search, filtering, and Dashboard capabilities

**Amba Motors** | *Node.js, React.js,Express.js,MongoDB,Git,HTML,CSS,RestfulAPI's,Vercel,Render* | **2023**

4

- Build a comprehensive MERN stack website "Amba Motors" for a garage business with a focus on user authentication and security.
- Improved robust query resolution mechanisms to enhance user experience and support.
- Demonstrated expertise in full-stack development, showcasing proficiency in both frontend and backend technologies..
- Leveraged MongoDB for efficient data storage and retrieval, ensuring scalability and performance.

**KAFF** | *Node.js, React.js,Express.js,Razopay,CSS,Git,Vercel,RestfulAPI's* | **2023**

4

- Modernized an online & offline payment integration system, enhancing user convenience & expanding payment options.
- Utilized Git version control to facilitate streamlined collaboration, efficient code management,& effective issue tracking.
- Developed a robust backend with Node.js and Express.js, enabling a scalable server for seamless user requests, order processing, and real-time updates.
- Enhanced application performance and user satisfaction by optimizing for responsiveness and reducing load times.

## Achievements

- Postman Student Experts are proficient in the essential skills required for consuming APIs in Postman and applications.
- Successfully completed the AMCAT assessment, demonstrating proficiency in key areas including Aptitude,Programming,etc and achieving a score of 93 out of 100.
