Work Experience

React.js Development Intern   OCT 2021 – DEC 2021
Fitness Fuel 360   *Navi Mumbai, India*
- Developed and deployed 5 highly interactive and responsive **React.js** web pages using **Material-UI**, leading to a **30%** reduction in page load times and a significant increase in user engagement.
- Integrated **RESTful APIs** to facilitate seamless data flow between the **frontend** and **backend**, enabling efficient user data management and a **50%** improvement in data processing speed. This resulted in a more efficient **user experience** and increased customer satisfaction.

Web Development Intern   JAN 2022 – MAR 2022
Edsquare Ventures Private Limited   *Mumbai, India*
- Architected highly responsive and performant web interfaces using **React.js**, leveraging component-based architecture and **Redux** for state management. This resulted in a **30%** reduction in page load time, leading to a **20%** increase in organic search traffic.
- Implemented **Redux** state management to optimize data flow within the **React** application, leading to a **40%** reduction in application load time and a more **responsive UI**, enhancing user satisfaction.

Projects

MadeByMe | *React.js, Node.js, MongoDB, Redux, estfulAPI's, Webpack* | **Code MAR 2022**   4
- Developed **RESTful APIs** with **Node.js** and **Express.js** for user authentication and course management, integrating **JWT** for secure access to personalized features, encompassing functionalities such as **Sign Up**, **Log In**, and **Log Out**.
- Enhanced application performance and user satisfaction by optimizing load times by **50%** and introducing interactive course listing pages **featuring search**, **filtering**, and **Dashboard** functionalities.

Amba Motors Garage | *Node.js, React.js, Express.js, MongoDB,Git, RestfulAPI's,* | **Code JUL 2023**   4
- Developed "Amba Motors," a **MERN** stack website with robust **user authentication** and security measures. Seamlessly integrated **frontend** and **backend** technologies for a cohesive user experience, demonstrating full-stack proficiency.
- Utilized **MongoDB** for efficient data storage and retrieval, guaranteeing scalability and performance, while integrating **Cloudinary** for streamlined image storage and management, elevating the website's visual appeal and performance

Kaff Foodie Website | *Node.js, React.js,Express.js,Razopay,CSS,Git,Vercel,RestfulAPI's* | **Code NOV 2023**   4
- Enhanced payment integration for user convenience, offering expanded options online and offline using **Razorpay**. Implemented **Git** for efficient collaboration and code management, while developing a robust **Node.js/Express.js** backend for scalable server operations, order processing, and real-time updates.
- Implemented **Git** for efficient collaboration and code management, while developing a robust **Node.js/Express.js backend** for scalable server operations, order processing, and **real-time** updates.

Maps *React.js, Next.js,Express.js,leaflet,CSS,Git,Vercel* | **Code MAY 2024**   4
- Welcome to the **dynamic** map interface of Maps, designed for easy location exploration. The main screen features a map with a top-left, **Algolia-powered search** bar for **real-time** suggestions. Selecting a suggestion **recenters** the map to the chosen location, displaying detailed markers.
- Maps' **frontend**, powered by **Next.js** and **Algolia**, utilizes **Leaflet** for maps and MarkerClusterGroup for efficient **clustering**, ensuring a seamless user experience
